Since David Ragan named Shriners Hospital for Children his official charity of choice in 2008, he has used his position as a top NASCAR driver to increase awareness of the healthcare system on and off the racetrack.

Shriners Hospitals for Children is a one-of-a-kind international healthcare system of 22 hospitals dedicated to improving the lives of children by providing specialty pediatric care, innovative research and outstanding teaching programs. Children up to the age of 18 with orthopedic conditions, burns, spinal cord injuries and cleft lip and palate are eligible for admission and receive all care in a family-centered environment at no charge regardless of financial need.

David is bringing national attention to the organization through public service announcements and other endorsements, such as wearing a Shriners Hospitals for Children helmet and driving a race car with a Shriners hospitals for Children paint scheme. He has also visited several Shiners Hospitals for Children, offering encouragement and a welcome distraction to the many young patients who were away from home while receiving care.

"I look forward to a long and productive relationship with Shriners International and the health care system they help support," Ragan said. "With the help of NASCAR fans across the nation, I know we can increase donations to their worthwhile cause and ultimately help thousands more children in the future".
